

# EY APPRECIATE

## HIGHEST PERFORMING TEAM

### Gangam Saketh Ram

Team HOP has been a living example of our key focus areas including Collaboration, Innovation and use of Analytics. The development has recently reached a key milestone of a global activation and will now have few global clients on board including G360 clients. The success of this development is contributed by the GDS team comprising of members from BM, DnA and EA. This was one of the firsts for BM team which included developement of model using Python with complex excel modelling in background

Appreciated by **Vaibhav Dadu**
